Team Associated is proud to bring you the latest version in the Monster Truck lineup. The RIVAL MT10 is a powerful, purposeful, and built-to-last 1:10 scale monster truck capable of running on 3S LiPo battery. Its strength lies at the very core of this beast with its high-performance 3300kv Reedy brushless motor, fully sealed transmission, robust shaft drive, and center differential. Power is something you will never lack. We've got you covered with the cool factor as well, with the all-new body color scheme and shell redesign.

The RIVAL MT10 features a long-travel independent suspension that is managed by four fluid-filled, adjustable coil-over shocks, giving the RIVAL MT10 the ability to roll over just about anything in its path. Giant aggressive monster truck tires provide maximum traction, letting the RIVAL MT10 claw through the toughest terrain with ease. The 4WD drivetrain includes three sealed gear differentials that transfer the power through durable slider type drive shafts to both ends of the truck.

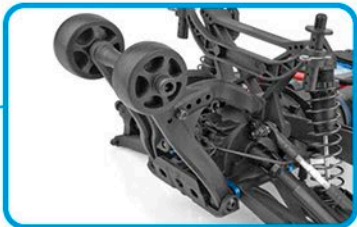

Whether you're smokin' tires on the asphalt, rippin' through the lawn or tearin' up a dirt field, Team Associated has you covered with the RIVAL MT10!

The **#20518C LiPo Combo** includes all the above as well as a Reedy #27201 Compact Balance Charger and #751 WolfPack 2S LiPo battery!
